Clarice Nye Oregon Wild Flowers

Rock Plants and Seeds - - - - - Lilies Trees and Shrubs Ferns, Perennials

ADDRESS
MRS. CLARICE NYE
Prospect, Oregon
Crater Lake Highway Forty Miles
from Medford

Advice About Rock Gardens

We are glad to help with any problems at any time, and can heartily recommend "My Wild Garden" and "Taming the Wildling" by Herbert Durand, and "The Rock Garden" by Lousie Beebe Wilder, as best authorities in Eastern United States.

For information as to the value for garden use of western native plants, read "Western American Alpines," by Ira N. Gabrielson. If you would like to climb our mountains and see our lovely wildlings in their homes, but cannot do so, take a trip at second hand with Dr. Gabrielson. You will find him most delightful company, and through his appreciative eyes will be able to enjoy and estimate them at their best. Order from me. Price \$3.50.

"Hardy Californicans," by Lester Rountree is equally valuable and interesting. It brings sixty-four photos of unusal native beauties, many of them offered in this catalog. Hundreds more are described and their real value and needs told by one who knows. Order from me. Price \$3.50.

"Rock Garden and Alpine Plants," by Henry Corrovon, of Switzerland, is undoubtedly one of the best in the world, and at the new low price should be had by all. Price \$3.00. Order from me.

Oregon Wild Flowers

Seeds—Seeds of many varieties can be furnished at 25c per packet. In ordering seeds, please list some substitutes that may be sent in case of shortage. Plants in this list are so rare that the supply is uncertain. Small packets, 5c.

Numbers (00) indicate height by inches.

The price for a dozen is ten times the price for single plants. Half dozens are sold at dozen prices. All are packed free of charge, and post-paid.

Our prices are cash with order, and we will send C. O. D. to reliable persons.

Small orders receive the same attention as large ones. Do not hesitate to write us if you only wish one item. Also, we will be interested to hear about the wild flowers growing in your locality. We make exchanges and buy desirable wild plants and seeds. We give a discount on large orders from parks, colleges, etc., and a trade discount to dealers. Write for wholesale prices.

Address all orders to Clarice Nye, Prospect, Oregon.

Native Plants Suitable for Dry Garden in Sun unless Otherwise Stated

E	ach
Anemone Deltoides, purest white colors for shade	.15
Baldensis, a beautiful light blue	
alpine, (10)	.50
Lyallii (4) pastel shades, requires	
acid soil in shade	.25
Occidentalis, Chalice Cup, milk white,	
ferny leaves	.50

Oregana, white with blue tints	
Acid soil in shade required	.40
Pulsatilla, pasque flower	.35
Abronia latifolia, yellow sand verbena, creeper from sea beach, Umbellata, pink, seeds of both. Actea spicata var. arguta (30), nice foliage	
white fl. and red berries in fall. Shade best	.35
Apocynum pumilum, pink fl. and leaves turning yellow in summer (8)	.25
Long spurred hybrids, mixed colors	
Dwarf rock garden species, mixed	
Many types mixed, seeds of all.	
Arabis Lyallii, pink fl. for sh. rocks	
Purpureus, deep pink, very dwarf	
Armeria artica, deep pink (6)	.25
with tiny white fl.	25
Aster alpina, not native, large blue	
Native, blue (6), (12) purple (15)	
Aster New Dwarfs not native,	.30
Countess of Dodley, bright pink	
Lady Henry Maddocks, light pink	
Lilac Time, lovely soft lilac Marjorie, bright rose pink	
Snow sprite, semi-double white	
Victor, clear lavender blue	
Mauve Cushion, only six inches high	
	.20
Feltham blue, Novae Angliae, violet purple Perry's White, small stars with yellow center	
Mrs. Raynor, reddish; St. Egwin, pink	
Very large blue and semi-double purple	
Native blue from Oregon sea coast	
Arenaria Montana, close gray tufts with white	
flowers in early spring	.20
Ajuga reptens rubra, red leaves, blue flAgrostemma coronaria, mullen pink, downy	.10
leaves and deep rose purple fl. (15)	.15
Asclepias tuberosa, orange Butterfly weed	.25
Speciosa taller, with white leaves and pink	
flowers, not so showy (36)	.15
Mexicana, more slender, pink fl. (24)	.25
Asarum caudatum green leaved ginger also listed	.410
with the bog plants	.25
Hartweggi, mottled leaved ginger, sh.	.25
Lemmonii, similar but better	.35
Astragalus purshii var. tinctus, a desert pea that	
makes a little flat mat of pretty leaves decked with purplish red flowers. Later	
pods are covered with dense wool and on	
opening like a black beak with the shiny	
seeds like eyes appear like birdlings in a	
nest. Called wolly lambs. Seeds only.	
Artemesia abrotanum, Old Man, finely cut fol-	0.5
iage, pleasantly scented (18)	.25
Artemesia species, name not known (18), stiff	

Boltonia, white asteroides, not native	
Boykinia elata and major for moist shade. Brunella vulgaris (6) deep lavender	
Atropurpurea, deep purple	.25
Balm, Mountain, Eriodictyon Californica, ca	
by the Spanish Yerba Santa. Dried le	aves
per oz. 15c; roots	
Balm, Monardella, scented leaves and pr	etty
lavender flowers	.15
Buckwheats, see Eriogonum	77 9
Callirhoe involucrata, trailing poppy mallor beautiful vine that will cover a space	
or five feet across in any good situation	n
Calamintha alpina, not native but a very pr	
plant with purple fl. (6)	.25
Chrysanthemum, pink cushion, dwarf vari	ety
that begins blooming in July and contin	ues
Yellow to rose, less than a foot high	
Calandrina umbellata, needs dry soil, a crin	
purple flower opening in the afternoon	
Calypso borealis (bulbosa) Fairy slipper, a b tiful pink orchid found only in shady wo	
Soil and moss with bulb	
Campanula Scouleri, (4) light blue lily sha	aped
bells, for woodsy banks	.25
Species, probably a variety of the above	
much more free blooming. Our name for is Multiflora. Seeds.	or it
Rotundifolia, from Washington State	.15
Species, possible a variety of above	
smaller from Siskiyou Mts. (4)	
Castillija mineata (10) Indian Paint Br	
showy in very dry situations in sun Carum Oreganum, white lacy flower (15), tu	
prized for food by Indians	
Chrysanthemum leucanthemum, white d	
with golden center, hardy and long blo	om-
ing (15) Coptis lacinata, yellow flower with varnis	had
fern leaves, pretty in dry woods (5)	
Cornus Canadensis, bunch berry (4). This	s is
very pretty with its white Dogwood flo	
and red berries but is hard to grow. quires acid leaf mold near water in sh	
Corydalis caseana, white flowers, ferny lea	aves
Aurea, yellow,	.25
Cotyledon Californica, thick leaved rosette	
Oregana, larger and whiter, neither ha	irdy
for hard freezing, found on sea cliffs. Cynoglossom grande, a lovely blue flower	
a tall, coarse plant (25)	
a tall, coarse plant (25)	with
many cream white flowers, less finicky t	
these following but requiring moisture Montanum, large pinkish ladyslipper, sl	
Fasciculatum, small pink and brown fl.	(8)50
Darlingtonia Californica, the beautiful West	tern
Pitcher plant. This is very desirable but	dif-
ficult to grow. I am told it succeeds if where it can have a constant supply of war	set
containing ammonia	25 to 1.00
0	

Deiphinium Andersoni, blue. Seeds only (24).	
Columbianum, a beautiful deep blue (12))
bee and spotted leaves (6)	5
Nudicaule, orange to red (18)	,
Parryli, blue, seeds only (24)	
Parishii, white to purple. Seeds only	
Scopulorum, very tall, purple blue, for moist	
soil in shade	0
Dentaria Californica, very early bloomer, white	
bell shaped flower round dentate leaf (5)	
called Spring Beauty here	5
Macrocarpus, larger, from Siskiyou Mts	
Tracyii, lavender with purple leaves	O
Dicentra Formosa, plumy bleeding heart, beauti-	~
ful foliage	Ç
flowers with purple tips	0
Douglasia laevigata, cutest alpine	
Digatalis, (4 to 6 feet) Fox Glove, many colors	
Dodocatheon Alpina, (6) prefers moist situation .5	
Hendersonii, (6) a beautiful rose to crimson	
primulacae, blooming very early in the	
spring. Good in the rock garden	5
Jeffreyii (12) a later bloomer called Sierra	
Shooting Star, light pink	
Epipactus Gigantea, for moist shade	0
Erigeron Radicatus, (2) deep blue or purple, free	
blooming	5
Compositus Var. trifidus, (4) white flower3	5
Folicosus var. compositus, (6) light blue	5
Salsuginosus, (10) large Alpine daisy	5
Species from the coast, covered with large	U
blue flowers in autumn, similar to Michael-	
mas Daisy	25
Evening Primrose, see Oenothera	
Eriogonums are fine for the rock garden. Dry	
situation. Seeds best as they are hard to	
transplant. Flowers are in clusiters and	
dry perfectly for winter bouquets. Dry	
sunny sit.	
Compositus, cream white in four to six inch	
clusters. Seeds only.	
Douglasi, yellow flower. Plant, a fine thick, neat, gray white foliage. Seeds only.	
Nudum, (18) white flower on slender stem	25
Sulphureum, Same but yellow	25
Umbellatum, (6) large yellow flower	25
Species variety of above, red flowers. Seeds	
only.	
Ovalifolium (3) everblooming alpine pink	50
Species. Wild Pink Buckwheat, a beautiful	
late annual. Seeds only.	
Eriophyllum	0=
Ianatum, green foliage, white beneath	20
flower, white foliage	15
Species, (4) felty white foliage, Alpine	50
Erysinum aspernum, (12) Western Wall Flower,	
yellow	15

Ferns

rerns
Very dwarf ferns suitable for rock garden. The roots should have a nice pocket of soil well protected by a large stone to conserve moisture and thus they will face
full sun.
Chelianthes Gracillima, (5) lace fern, dainty,
clump
Cryptogramma Acrostichoides, (3) parsley fern2
Gymnogramme triangularis gold fern (6)
like a sprig of fir
Lomaria Spicant, the Deer fern for moist shade
Pellaea densa, the daintiest and also the hardiest dwarf fern
Filin-fragilis, a delicate little beauty, a bit larger than Woodsia Oregana
Polypodium Occidentale, licorice fern, pre- fers a mossy stone for a home
Larger Ferns
Polystichum Lonchitis, Holly Fern, a lovely evergreen fern for shade only
Polystichum Munitum, large sword fern
Pteris aquilina var lanuginosa breaken, for a shady spot. This makes a tall background
Dryopteris Arguta, (18) evergreen shield fern
Asplenium felix-foemina, lady fern, moist shade. Each
Woodwardia Radicans, great chain fern, very large, requires moisture and shade. Each
We have many other nice ferns not yet classified Write us your wants.
Fragaria, wild strawberry from beach, glossy leaves, red runners, nice berries
Wood strawberry, large flowers
dark blue flower, freely borne, moist soil 35 Species. probably variety of above. Large, free-flowering, for dryer soil. As many as eight large striped upturned bells open
at one time
its freedom of bloom Nye's New Florenciana, a fine variety we
have been unable to find described. It is a lovely deep dark blue and likes a black
bog soil by a mountain brook
Orfordii, (24) a taller sort with several nice,
medium blue flowers

Geranium incism (Fremonti) needs shade. Flow-
er large purple pink (25)
Richardsoni, large pure white (24)
Gilia aggregata, scarlet gilie flower or trumpet phlox, nice dwarf cut leaved plant that runs up to three feet with many bright but
dainty flowers, the second year (8-20)
Pungens (Leptodactylon) a little beauty nearly like Phlox Douglasi
Nuttallii, White, night blooming
This is interesting but not so beautiful.
It is a desert plant.
Goodyera Menziesii, mottled green and white
leaves, shade
er, a plant very nearly related to the
Sedums and as good for dry or moist rock
work
Rhodiola, or laxa, red flowered. Plant very
nice
damp-lover. Blooms very early
Heuchera micrantha (12), spray of white flow-
ers, begonia-like leaves which color nicely25
Glabella, green leaves, good for dry rock work .25
Hulsa nana, (4) sun flowers large as a dollar
with ruffled hairy leaves. Sand in full
sun on mountain tops. Seeds only. Irises. Our native irises should have the care
of any fiberous rooted plant. Are not so
hardy, as those with large rhizones. After
becoming established they will endure as
much hardship as ordinary perennials.
Bracteata (12) Yellow, heavily veined with
maroon. Leaf long, deep green
Species, our name, Nye's Iris Selma, smal-
ler than above but with as large and even
finer flowers (8)
Chrysophylla, white or cream with very dainty tints and veining (6)
Californica, varied colors (6)
Douglasiana, the beautiful iris, so plentiful
along the Oregon Coast where it is found
in every shade of light blue, orchid, lav- ender or white. (18)
Cristata, a lovely light blue dwarf from North Carolina (5)
Innominata. The finest yellow western iris,
a deep buttercup gold on stiff stems six
to eight inches high. Foliage narrow and deep green. From dry rocky hillsides 1.00
Gold River, a variety of the above still smal-
ler and a beautiful orange in some speci-
mens 1.00
Sunset, a slightly less yellow form. Seeds only. Hybrids Innominata x Chrysophylla. Seeds
and plants 1937 autumn
Hybrids Chrysophylla x tenax. Seeds only.
Missouriensis (18) white or light blue lined with blue. Moist soil, alkaline

Tenax. This is one of our best as well as
most varied in color coming from white to
deepest blue and rarely in lilac and or-
Thompsoni. This is a lovely little thing of-
chids, falls ruffled
fered by others as a color variation of
I. Innominata. We found it and offered it
as I. delight but Prof. Thompson of Se-
attle had beaten us; we hereby give him
credit and he allows us to be the first
to offer it under his name. It is a lovely
orchid and forms a dense mat of narrow
green foliage, quite distinct 1.00
Lineafolius. This is our own name for a
very dainty little white iris with foliage
only a line wide and very sparse. Stems
wiry, six to nine inches high 1.00
Louisiana wild iris. These are very interest-
ing and have proved hardy here. Burnt
orange and blue
Versicolor, native blue iris from Wisconsin25
Juniperus—see tree and shrub list.
Leucocrinum montanum, pure white sand lily, clump
Lewisia—The evergreen varieties are often listed
as Orebroma and include all except redi-
viva and oppositifolia. These are our very
best rock garden plants requiring good
drainage and full sun, but not south ex-
posure in California. Roots should have
good protection under large rocks, and no
irrigation. Coarse sand or broken rocks
around the plant on surface to prevent
damping off.
Columbianum, has narrow leaves and small
flowers. This bloomed the whole summer
and fall in my rock garden. Flower white25
Columbianum var. rosea. Pink
Cotyledon, slender leaved rosette and white
flower, veined pink
Finchii, one of the best. Have counted over
five hundred florets from one plant in a
season. Striped pink flowers
Nye's new variety of Finchii, still larger
with a clear pink flower
Hecknerii, a fine new one with saw-edged
leaves; flower pink striped with white
Howellii, leaves of the rosettes, ruffled and
crested, flower deep rose striped with
white
Ingramii, a variety of Howellii, equally good .35
Leana, narrow leaved evergreen plant flower
a many blossomed spray
Nye's Dwarf Rose variety of above with larg-
er semi-double flowers on short stem and
of a fine bright rose
Eastwoodiana, very similar to above but
pure white. Very rare
Seeds of Eastwoodiana, 5c each
Whiteii, of this group but has a longer
spearshaped leaf 1.00

Seeds, 5c each.	
Tweedyii, largest and one of the loveliest of this family. Very long blooming, Color.	
peach to salmon pink. Seeds 5c each. Large plants	1.00
Smaller50 and	.75
New Varieties—The following are offered as Howellii var. Nelson Nye, large, in- tensely ruffled rosette with light creamy pink to almost white flowers on long	50
Millardii, large, handsome rosette of broad- ly spatulate leaves, slightly ruffled. Flow- er similar to L. Finchii and freely borne	
Longifolia, leaves very long, narrow and thick only slightly ruffled. Flowers lemon yellow white to creamy pink borne on extra long stems. Distinctly different	
Mariana is of the evergreen rosettes variety, foliage dark in color, flower yellow and white with some pink, very striped. It is almost everblooming with me	50
Crenuata, a dwarf variety of Howellii with a fine ruffling all along the leaf and light	
Decideous Varieties Rediviva (3) Bitter root, the state flower of Montana. This looks more like a beauti- ful pink waterlily than a desert plant. It is the first of this lovely family of west- ern plants and was discovered by Mer-	.00
riweather Lewis and is named for him. Thrives in dry soil All the following need moist soil until after	.15
bleoming. Brachycalyx, very pretty pure white	.40
Seeds 5c each. Nevadensis, smaller than above	.15
Oppositifolia, similar to above but with flow- ering stems about six inches high	.15
Var. Richeyi, a new dwarf form more free flowering than the above	.25
Lewisia Species, fine distinct new ones not	
yet named. While they are in stock	
er than L. Perrene (20) Linneae Borealis var. Americana, Twin Flower	
Vine Lupinus Lyallii (4), the tiny gray-leaved Alpine which blooms the whole season. Seed is	.15
Minimus (9) yery free blooming	.35
Ornatus (12), silver-leaved lupine Arboreus the beautiful tree lupine with yel-	.15 .35
low flowers. Seeds only. Breweri, very dwarf with white leaves and	
nice blue flowers	.25

Chamissonis, blue tree lupine. Seeds only	
Rivularis, a tall variety growing by streams	
has long bloom spike and handsome	25
bronzy leaves, seeds and plants	.53
and seed prices will be gladly supplied.	
Lupines are very good for roadside planting	
and for cut banks. They are good to hold	
seil with their long roots and are very hardy.	
Lithophragma affinis, white woodland star	.15
Tennella pink	
Lutkea pectinata (4), make a lovely green mat	
in a moist spot in rocks. Spreads quickly	
Monardella villosa, a free flowering mint (7)	.25
Micromeria Douglassii vine with scented leaves;	
nice in the rock garden	.15
Mertensia laevigata, a large blue bell (16)	.35
Montia parvifolia, dainty white flower, always in bloom (6)	15
Oenotheria tricocalyx, Desert Primrose; opens	.10
pure white and changes to pink. Sandy	
alkali soil, well drained in sun (6)	.30
Sun cups; day blooming; yellow (10)	
Oxalis oregana, pinkinsh and pretty	
Oreobroma—see evergreen Lewisias	
Paeonia Brownii, (8) our only native peonia and	l a
dwarf adapted to a rock garden; large	
red flowerParrya (4) a pink flowered deep rooting plant for	
where there is some moisture on the edge	IIIu
of the desert. Seeds only.	
Pedicularis densiflora. Indian Warrior. Very	
handsome but hard to tame	.50
Pentstemon Azureus (8), a lovely flower freely	
borne	.35
Cardwelli (6), shrubby creeper, very free	50
blooming, flower brightest blue Centranthifolius (36) scarlet bugler	
Cordifolius, climbing scarlet trumpeter. Seeds	.40
only.	
Corymbosus (18) shiny leaved shrub. Seeds	
only.	
Davidsoni, very dwarf, blue flower	
Glaber (8) larger flowered blue apline	
Heterophyllus (15) very long blooming blue.	.25
Jaffrayanus (6) deep blue alpine. Seeds only. Laetus, medium blue (10) very hardy	15
Menziesi (6) shrubby evergreen creeper with	.IJ
small round green leaves and blue flowers	.35
Rupicola (6) gray leaved shrubby creeper	
lovely rose crimson flowers, very nice	.35
Fruticosus (8) Lavender flowers	.35
Procerus, blue clustered penstemon	.25
Roezli deepest blue (15)	.25
Speciosa (36) very long spike of lovely blue flowers	.25
Tolmei, a tiny dwarf of the clustered group	.20
	.50
Phlox adsurgens (5) evergreen creeper with	
beautiful pink flowers, for shade	.25
Douglasi (3) Alpine phlox forms a dense	F-0
mat covered with lovely flowers	.50

Speciosa, slightly shrubby with sparce leaves but beautiful pink flowers	35
Species from Klamath County, doubtless a var-	
iety of P. Douglasi but even more dwarf	
and compact with lovely pink and orchid	
flowers nearly hiding the deep green	
mossy plant (2)	.50
Subulata atropurpurea, not native but very	
good. Vivid, bright pink. Both are creepers	
and make a presentable plant when not	
in bloom and a mass of color covering the	
entire plant when blossoming in early	
spring	25
	0
Decussata, too tall for the rock garden as a rule but a very fine plant where height is	
• •	
right. Miss Lingard, pure white early bloomer with	
deep green shiny leaves (15)	25
R. P. Struthers, deepest pink with red eye	
Amy Gordon, named for my great grand-	.40
mother and from her garden. Florets are	
small but are in large clusters on four	
foot stems. Color white tinted orchid	25
Mixed seedlings, many colors, doz. \$1.00, ea.	
	.10
Pipsisewa (Chimaphila) Prince's Pine, hardy for	
cold and drouth and good for naturalizing	
under evergreens. Flower pink. Evergreen	
and much used for decoration. Also medi-	0.5
and can be supplied dried	
Phoradendron, mistletoe, berries in season, pk	25
and sprays for decoration, post paid,	
per lb.	.25
Potentilla anserina, Silver Weed, creeper spread-	
ing by runners, fl. deep yellow	.15
Fruticosa, Cinquefoil, Shrubby with many	
nice yellow flowers (18)	.35
Gracillis, rather weedy but pretty (14)	.15
Flabellifolia, a dainty and beautiful alpine	.50
Polemonium Carneum (10) largest flowered of	
our Jacob's Ladders and of a beautiful	
pink	.35
Confertum var eximium very dwarf blue or	
white flowered alpine cutie. Seeds only.	
Occidentale (18) Needs a brookside place	.35
Pulcherrimum (8) a very beautiful blue al-	
pine form very free flowering at home	0.7
in dry rock work	.35
Ranunculus glaberimus (4), Sagebrush buttercup	0.5
deepest yellow flower, very early	.20
Californicus (12) very early bloomer	.10
Crossing double only a few inches high	.10
Spreads quite fast but very pretty. Not	
	10
Ribbon grass, bulbous, only grows 4 inches	1(
high and does not spread fast	15
Ribbon grass, tall, pink, white and green	
Rubus Nivalis, rare creeper requiring acid soil	1 0
and deep shade. White flower, red ber-	
ries and crisp varnished leaves	50
Romanzoffia Californica (6) for a mossy spot	
in ahada Elawan white	4.1

Rudbeckia Californica (50) a tall native with	
long glaucous leaves and lemon yellow	
flowers with high purple brown center	.50
Golden Glow, double golden yellow (72) Purpurea, purple cone flower (36)	25
Saponaria ocymoides, nice creeper with bright	.20
pink flowers. Spreads quite fast (4)	.15
Double light pink fragrant (16)	.15
Both are not native.	
Shamrock, brown clover from Ireland	.15
Sidalcea Oregana, tall wild hollyhock	.15
Californica, dainty pink fl. (10)	.15
Saxafraga Eastwoodiana, moist, mossy rock-	
work in shade. Very rare	.75
Species with tiny brown notched leaves	
and pretty white flowers. Same situation	-0
as above	
Peltata (36) with very large round leaves	.10
suggesting the name of Umbrella Plant.	
Flower pink in large cyme, early in spring.	
Needs a water margin soil	.50
Tolmei, a dainty white flowered alpine with	
shiny beadlike foliage resembling a tiny	
sedum, found at base of glaciers. Roots very deeply so seeds are best.	
Sedum divergens, slender upright or reclining	
branching stems with beadlike leaves	.15
Var. Rattlesnake moss, larger than above	
both with starry yellow flowers	.15
Douglasi, tiny green rosettes, nice in winter	
running up 3 to 8 inches high with whit-	
ish flower. New plants form on stems of	
old and spread freely	.05
Radiatum, very similar to above but yellow	0.5
floweredObtusatum, thick whitish leaves turning	.05
bronzy in fall; flower white with red	
brown center. Sun, dry soil	.15
Oreganum, close rosettes of bright green	
turning reddish, yellow flower, best in	
shade	.25
Nevadensis, larger gray green rosettes with angled ends of leaves, flower white, red	
center; sun	.25
Purdyii, flat shiny rosettes of brightest	
green connected by red runners, yellow	
flower. One of our cutest sedums. Must	
have shade	.25
Species with equally flat gray green rosettes, larger and taller stems with starry yel-	
low flower, shade	25
Spathulifolium, a long name stretched to	
cover a multitude of variations. Often the	
last before and the two following. As we	
offer it the rosettes are small and white	
changing color with the seasons. Flower stems 2 to 4 inches and blossom nice yel-	
low. Very good in sun or light shade on	
dry rocks or any place	.15
Woodii, very small with deeper yellow flow-	
ers	25

Cape Blanco, very white larger rosettes with light yellow flowers from sea cliffs, sun	
or shade	15
for sun	15
Species, green, thick leaved, low growing with red margin in spring and silver line in autumn	25
Species gray green blossom stems thickly leaved appearing to be a button string,	25
Sedums not native here	
Sedums acre, mossy green carpeter at blossom time, pure gold almost without a touch of green	15
Acre minor, still smaller	15
Angelicum, tiny flat carpeter, pinkish fl	
Brevifolium, very tiny glaucous foliage	15
flower	15 15
Kamtschaticum larger (4) with orange flower	
Kamtschaticum variegatum, green and white leaves	15
Reflexum cristatum, upright grower, very	
odd	
Spectabile, Live For-ever, tall, pink fl	15
Spurium, white flower, broad notched leaves Spurium coccineum, red flowered (6)	15
Sempervivems, not native here, but a very fine	
group of plants for the rock garden. They do not compare favorably with Lew-	
isias from any point except hardiness and rapid increase but they are of the very	
best in those. Each	15
Arenaria, bright green, tinted red in winter Atrapurpureum, very large purple rosettes.	
Fimbriatum, slightly hairy. Laggeri, larger cobwebs or with pink flower.	
Pallidum, light blue green	
Tectorum, old stand by Hen and Chickens Violaceum, deep purple.	
The seven varieties\$1.0	
Twelve unnamed varieties 1.6 Scutellaria angustifola is not the large plant	00
its name implies. It is only about six inches high, with a deep blue flower	
Tuberosa, still small with light blue flower	15 15
Silene Hookeri downy leaved fringed pink. Salmon	
pink needs deep soil among rocks	
Ingrami, sometimes considered a variety of	
S. Hookeri, but taller and very deep pink	35
Sisyrinchium Bellum, blue-eyed grass, moist	
soil	

Grandiflorum, larger, satiny, spreading bells	15
of a beautiful crimson-purple, sun Grandiflorum var. with light pink flowers,	.10
elin	.15
Solidago elongata, golden rod	.15
Spergula, green mossy carpeter with white flower	.25
Spragua umbellata, pussy-paws, grows flat on	
the ground, flowers white to red, water-	.15
melon scented	.10
a nice reddish color	.25
Synthyris rotundifolia (3) Hope o'Spring, Sleigh-	
bell or Spring Queen, all names of a well-	
loved little blue flower which comes first	15
of allReniformis (6), more showy light blue flower.	.15
Both plants very nice and like shade	.35
Sweetseri, var. of rotundifolia with long	
leaves and deep blue flower	.35
Talinum spinescens, very dwarf plant for dry	
rock garden in sun. Flowers freely borne	25
and very dainty pink	15
Tiarella unifoliata, spray of tiny white flowers,	.10
prefers moist shade	.15
Triontalio latifolia, pink star flower, a tiny pri-	
mula	.15
Thymus, the old fashioned thyme not native with us but so good we have adopted it.	
Creeper in winter with dainty lavender fl	.10
Citriodorus argetteus silver and white (6)	.25
Citriodorus aureus, green and yellow leaves	.25
Langinosus, wooley prostrate foliage, pink fl.	.25
Tradescantia virginica, blue, native in Wisconsin	.25
Pale blue from Texas (9) Brevicaulis, pink (6)	.25
Valeriana sylvatica (9) pinkinsh, more dwarf	
and better than V. stichensis. We can sup-	
ply both	.35
Vancouveria chrysantha, leathery leaves yellow	25
flowers Hexandra ferny leaves, white flowers	.25
Veronica incana, white downy foliage, deepest	
blue flower (4) Not native here	
Viola adunca, blue, very long blooming	
Blanda, tiny whiteBrooksii, yellow, dry rock garden	
Chrysantha or Douglasii, deep yellow	
Cuneata, one of the cutest violets. White	
with blue eyes and back	.25
Hallii, sweet-scented purple and cream. Our	
finest native violet	.25
Palustris, pink and lilac, for wet meadow Pedunculata, Yellow Pansy, a very fine deep	.40
color	.25
Nuttallii, Downy Johnny Jump-up	.15
Praemorsa, similar to above, but a paler	
color and less free-blooming	.25
Occidentalis, long-stemmed white, for water margin only	.25
Glabella, yellow	.15
Lobata, yellow	.25
Sarmentosa areaning vollow	15

Sheltonii, cut-leaved, yellow
Trinervata, a rare lavender variety from
Eastern Washington
Howelli, very near adunca, but of a deeper
blue and very long flowering
Langsdorffi, light blue for moist soil and
deep shade (6) very rare and lovely
Not native here
Alpina, deepest dark blue, pansy foliage
Papilionacea, nice purple blue, very thrifty15
Papilionacea var. priceana, white Peacock
violet
Prince of Wales, nice long stems on these
and the last two flowers very large, pur-
ple
White sweet scented, early
Czar, nice single white, medium length stems, very free flowering
Canadensis, white violet from Oklahoma
Veratrum, a tall (60) plant with broad leaves
and large cluster of white flowers belong-
ing to the lily family, seeds. Roots 1.00 Xerophyllum tenax, Elk Grass, Squaw grass, a
beautiful shiny grass with a flower like
a white plume three to five feet high.
Good plants75 to 1.00 Zauschneria Californica, often called hardy fuchsia
Bright scarlet flower late, in bloom to
frost. This is a spreading vine that will
cover a larger space in dry rock gar-
den35
Latifolia just slightly more yellow a shade
of scarlet and of upright growth
Makes a neat little shrublet in form.
Cana, (microphylla) smaller with very
downy leaves. For dry rock garden (8)35
activity reaction for any result generally (c) in the
NATIVE BULB PRICE LIST
To II and a limited and book allowed in the fell
Bulbs of all kinds are best planted in the fall.
The small bulbs can be supplied by Sept. 1, and the
larger lilies by Oct. 15 or sooner.
Lilium, Washingtonianum, a very fine white to pink lily. There are many variations to
this lovely lily and the most common is
called the Mt. Hood Lily. We can supply
this and the larger form called Wash-
ingtonianum purpureum. Give them very
excellent drainage
Smaller bulbs
Washingtonianum minor, Shasta Lily, simi-
lar to above but with smaller bulbs and
slender stems, price each
Rubescens, the Redwood lily, white to pur-
ple
Kelloggii, pink. Good
Humboldti, a splendid yellow lily; prefers
well drained clay soil
Humboilti magnificum, even better; spotted
with red
Columbiana, a nice small yellow lily
Roezlii, crimson, stem slender, leaves crowd-

Roezlii, orange, similar to above
Pardalinum, closely related to the latter40
Parryi, a very nice yellow lily, requires moist soil; rare
Bolanderi, a small deep red lily suitable for
the rock garden
Occidentale, extremely rare red lily; moist location
Seeds-We strive to secure all the seeds we can of
these and other native lilies. Price per pkt25 Frices on larger quantities on request.
BULBS FOR THE ROCK GARDEN
Dry Soil in Sun Unless Otherwise Stated
Allium Acuminatum (6), deep red
Falcifolium (3), large flower, bright red50
Mixed, many kinds and colors
Unifolium, lavender pink
Cernuum, nodding onion
Falcifolium var. demissum
Brodiaea congesta (16), blue flower
Coccinea (14), the firecracker flower1.00
Grandiflora (coronaria) harvest brodiaea.
This hardy midsummer bloomer rivals the gentians for color. A wonderful blue
Lactea (12), white with green stripe
Laxa, large blue flower
Ixodics (6), yellow with purple stripe
Camassia Esculenta (12) light blue wild hya-
cinth
Leichtini alba, white hyacinth (3)1.00
Calochorte are the wild tulip of the west and are
more varied and charming than the tulips of Hol-
√and. They will grow well under almost any garden conditions and are excellently well adapted to the
rock garden. Care should be taken to keep them
from irrigation in late summer as they are naturally dormant at that time.
Doz.
Calochortus Amabilis, deep yellow globe tulip 50 Albus, white Fairy Lantern, very dainty 50
Amoenus, the beautiful pink fair lantern
moist soil
Maweanus, cat ears, pink with hairs
Nitidus, hardy Mariposa from Idaho lovely
lavender, distinctly eyed (12-18)
Macrocarpus, another hardy one, from East- ern Oregon; will stand 20 degrees below
zero. Very tall plant, many lavender flow-
Vesta, white flowers usually tinted with
lavender and pink 1.00
Venustus Citrinus, yellow with black eye
Venustus El Dorado, colors varied from
white to deep claret red; the very best60

-1 6
Erythroniums are very easy to naturalize in woodsy conditions and are good in the blub bed or the rock garden. They are a charming lily and often but erroneously called Dog Tooth Violet. Herberd Durand calls the spotted-leaved varieties Trout Lily, and John Muir calls them Fawn Lily. Both names are good. They are not fussy as to soil or situation and come readily from seed.
Giganteum, cream white
situation and it is good anywhere. Doz. Recurva or Red Mission Bell
BOG GARDEN PLANTS Each
Aconitum Columbianum (36), purple monkshood .15 Arguta rubra, white flower, red berries
Habernaria dilatata (18)
. a.

Pyrola bracteata, glossy leaves and lovely pink	.35
Viola occidentalis, palustrus and blanda are	
at home in the bog garden and glabella, Howellii and Langedorffi on its margin. Prices elsewhere.	
Japanese Iris are water lovers and make a	
a good back ground for the pool. We can supply the following named and have a nice lot of fine seedlings and lost name varieties we offer at 25c each or five for	₹1 ∩∩
Clarice Childs, petunia violet	
Eleanor Parry, Claret red	
Idzumi-gama, gray with blue lines	35

Mossy pumice and waterworn or lava step- ping stones can be supplied. Prices on re-	
quest.	
SHRUBS AND TREES	
Arbutus Menziesii Madrone, broad-leaved ever-	
green, white flower, red berries in autumn. Price	1.00
Arotostaphylos Manzanita, evergreen shrub with beautiful bell-shaped pink flowers. Hardy	0.0
to zeroGreen Manzanita, deeper pink flowers	
Ura-Ursi, Red Bear-berry Berries, bright	
Azalea occidentalis. This is easily one of the best three Western flowering shrubs, possibly	
being surpassed by its relative Rhododen-	
dron Californica and Romneya Coulteri for beauty of bloom. But it is so much	
hardier and more likely to succeed it is	
a much better investment. The flowers	
are very sweet scented and are freely borne for long season beginning the last	
of May. The milk white to yellow and	
pink flowers are in clusters often very	
large. The foliage is glossy and colors beautifully in autumn. They are decidous	
and hardy but require a moist soil, acid	
preferred. Nice seedling plants, mixed col-	
ors	30 1.50

fifty years and are often told it is better	
than yellow groundcherry usually is. We	
make them into pies and sauce as well	00
as preserves. Sow where it is to grow. Pkt.	.05

ROCK GARDEN LORE

For many years I tried with small success to grow wild flowers. Then I learned of the rock garden idea. I began at once with an apron full or rocks and a bucket of dirt. It was a success and a joy from the first. Drainage is one of the most essential points. Arrange your rocks to allow drainage and to conserve moisture. Always use acid soil for wood dwellers and alkaline for desert plants. If your soil is heavy or clay, use crushed gravel, broken crockery, brick or plenty of sand. Peat moss is highly recommended but I have not yet tried it. If you collect your own plants carefully note whether they grew in sun, shade, wet or dry, soil black, leaf mold or sandy and duplicate these in its new home in your garden. If you buy your plants, read the requirements given in the catalog and heed them. It is a great deal more fun to succeed than to fail. Wishing you all success I am,

Sincerely and Cordially yours,

Clarice Nye, Prospect, Oregon.
